Dutch

I'm a people-person who thrived in the logistics industry for 8 years. However, I soon discovered that my strengths with communicating and collaborating with others still placed a glass ceiling over my head as I lacked the technical skills to really make things happen. This realisation motivated me to pursue programming and I recently completed the Fullstack Academy at Codaisseur. I'm now eager to find a role that allows me to combine my people-centric skills with my newly acquired technical skills to make a real impact in the world.

Education

Codaisseur Academy, Full Stack Developer

2022 – 2022 | Amsterdam, Netherlands

- The pace and intensity of program equipped me with skills and confidence to learn any new technology
- Gained insight into most in-demand technologies which reaffirmed my passion for the field
- Acquired technical skills to design and develop responsive web applications

Slice of football!

A football community platform that facilitates connecting players, creating tournaments, and organizing matches. Location-based features allow for easy discovery of nearby tournaments and matches. Its main goal is to bring people together and promote the sport.

Frontend : React, Redux, CSS, Leaflet

Backend : NodeJS, Express, PostgreSQL

Technical High School in Computer Science

09/2008 – 06/2012 | Gora, Poland
